⁽¹⁾ Forrester believes that adjusted financial results provide investors with consistent and comparable information to aid in the understanding of Forrester's ongoing business, and are also used by Forrester in making compensation decisions. Our adjusted presentation excludes amortization of

acquisition-related intangible assets, acquisition-related deferred revenue fair value adjustments, stock-based compensation, acquisition and integration costs, net gains or losses from investments, lease incentive cost and credits, as well as their related tax effects. We also utilized an assumed tax rate of 31% in both 2020 and 2019, which excludes items such as any release of reserves for uncertain tax positions established in prior years, the settlement of prior year tax audits, and the effect of any adjustments related to the filing of prior year tax returns. The adjusted data does not purport to be prepared in accordance with Accounting Principles Generally Accepted in the United States.

- (2) The tax effect of adjusting items is based on the accounting treatment and rate for the jurisdiction of each item.
- (3) To compute adjusted net income, we apply an adjusted effective tax rate of 31%.
